

UXÍO FRAGA

Why hire me?

Because I am a responsible man, used to solving problems, managing people, overcoming difficulties, and moving businesses forward.

When I don't know something, I don't freeze: I ask, I learn, or I bring in people who do.

I have extensive knowledge of AI, financial markets, IT, blockchain, marketing, and engineering. I am used to leading teams, meeting and negotiating with people. I think medium and long term, and I don't let the urgent distract me, staying focused on what's important.

I know firsthand how tough it is to carry a whole business. That is why I want to help carry yours.

My specialty is driving progress and making things happen.
